Agenda Topic Overview -

Speaker: Liz Filauri

"Information Analysis, Sharing, and Coordination"

Terrorists strive to exploit national weaknesses and search for unprotected areas to attack. Information Analysis and Infrastructure Protection (IAIP) helps deter, prevent, and mitigate acts of terrorism by assessing vulnerabilities in the context of continuously changing threats. IAIP strengthens the nation's protective posture and disseminates timely and accurate information to our federal, state, local, private, and international partners. Representatives from IAIP will discuss how IAIP analyzes, shares, and coordinates information.

Directions to Allegheny County EOC from Greater Pittsburgh International

Airport: When exiting the airport, take Rt. 60 East towards Pittsburgh for approximately 18 miles towards the Fort Pitt Tunnels. Enter the tunnels and stay in the right lane. Take Exit 376 towards Monroeville. Enter the Squirrel Hill Tunnels, stay in the right hand lane and take the Edgewood/Swissvale Exit. Follow the signs towards Edgewood, Braddock Avenue. At the stop sign, proceed onto South Braddock Avenue. Follow S. Braddock (3 traffic lights) and turn left onto Penn Avenue, then right onto N. Lexington Street. Park in the far lot and enter through the Security Office. You will take the elevator to the 2nd floor and follow the signs for the Allegheny County Emergency Operations Center.
